

Real Estate Photography – Instructions

PURPOSE

These photos are used to advertise the property online — for both rentals and sales.

The shoot's goal is to highlight the property's best features and convey an overall impression of the rooms, the surroundings, and the experience.

EQUIPMENT & SETTINGS

Lens

- Full frame: 14–18mm
- APS-C: 10–12mm
- Micro: 7–9mm

⚠ Fisheye lenses are not permitted.

Tripod

- Height: 130–140 cm
- Keep lines straight and floor / ceiling distances equal
- Camera must not be tilted up or down

Camera

- Format: 3:2
- Exposure: -2 / 0 / +2
- Aperture: f/8 – f/11
- ISO: 100–200
- White balance: AWB
- File format: RAW

⚠ Non-compliance may lead to an unpaid reshoot.

DELIVERABLES

- Cover image (main photo for listing)
- Interior shots: 1–2 per room (living room, bedroom, kitchen, bath, etc.)
- Exterior shots: 1–3, including terrace, garden, entrance, surroundings

UPLOAD & PRE-SELECTION

- Upload all images

- Pre-selection per package size (e.g. 10, 15, 20, 30, 40, 50 photos)
- RAW files accordingly more (e.g. 30, 45, 60 ...)
- Two upload categories: required shots + additional shots

⚠ Missing rooms or excessive repetition = reshoot possible.

DO'S & DON'TS – BEFORE THE SHOOT

- Switch off TVs and fans
- Open curtains and blinds
- Remove cables, routers, trash, and distractions
- Smooth out bedding

DO'S & DON'TS – AFTER THE SHOOT

- Verify: are all areas covered?
- Delete blurry and duplicate images
- Note customer requests in comments

⚠ Upload by the evening of the shoot at the latest.

COMPOSITION

- Highlight key features
- Use wide angle (no fisheye)
- Keep camera straight, avoid distortion
- Apply the rule of thirds (3×3 grid)
- Show rooms clean and tidy

INTERIOR SHOTS

- Apply the rule of thirds
- Balance between floor and ceiling
- Keep parallel lines straight
- Check tidiness and cleanliness
- Verify each shot before changing angles

EXTERIOR SHOTS

- Remove trash, vehicles, and distracting objects
- Use varied perspectives: frontal, angled, overall
- Avoid reflections and harsh shadows
- Reduce sun glare
